DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 22, 2007 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At line 2 of the specification, after "10/053,569," insert ---now abandoned,---.

Allowable Subject Matter

3. Claims 42-53 are allowed.
4. The following is an examiner's statement of reasons for allowance: The Powell reference is the closest prior art. The reference discloses refrigerant compositions comprising pentafluoroethane and 1,1,1,2-tetrafluoroethane in amounts which read on those presently recited, in combination with a hydrocarbon. Suitable hydrocarbons

Art Unit: 1751

include isobutane. While isobutane is specifically disclosed, its boiling point does not fall within the range disclosed in the reference as suitable. In addition, the examples in the reference use pentane as the hydrocarbon. Applicant's affidavits show that all of the disclosed compositions leave a flammable mixture after the 50% leak test, while the compositions of applicants, employing isobutane, do not. This showing of unexpected results refutes the teaching of the equivalence of the hydrocarbons disclosed in the prior art, making the present claims allowable over the reference.

Applicant's amendment to "consisting" scope overcomes the obviousness-type double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318.
